

Dear Client,

There is an opportunity to be a potential vendor with Liquid Telecom for installation of optical fibre networks. To qualify you have to meet the following minimum requirements:

- Project Management experience
- Plan OSP Network experience
- GE Smallworld planning experience
- Civil work experience
- Building Reticulation experience
- Fibre installation experience
- Fibre splicing experience
- Telecommunication OSP ISP plant / material knowledge
- OSP & ISP Planning Tools
- Civil Work Tools
- Duct installation tools
- Building Reticulation tools
- Fibre Installation Tools
- Fibre Splicing Tools
- As Built Documentation
- QA Plan
- Health & Safety Plan

All contractors must adhere to Liquid Telecom South Africa's contractor requirement specification. The specification covers all requirements in terms of skills, tools, premises and health and safety among others.
